

Council meeting August 2026.

Planning.

Nothing new on the Portal. (will check again before the meeting)

In view of the recent Neighbourhood plan from CDC we need to ensure that Campden, Willersey and Mickleton Councils keep us fully informed of any planning applications that need additional support for from ourselves.

Recreation Ground.

The play equipment is in good condition.

The 2 wooden bench seats are a tad wobbly, due to the dry ground.

Holes are getting bigger and now urgently need filling before there is an accident.

Footpath and stiles.

I am slowly venturing out more and more, the footpath from the Recreation Ground to the metal gate has still not been stoned.

Stream

Is running well no issues, (When was last letter sent to Riparian Owners)
